Subject: Microsoft Settlement

We are a small consulting company in the Fairfax, VA area managed by a group of very entrepreneur US citizens - Comter Systems Inc. We also do have issues with the bigger players in the field but I have to say salutations to them for getting there. I feel the same for Microsoft. They started out like everyone else and had worked their way to the top and I cannot believe a bunch of jealous competitors can create this level of aggravation and insult to them.

Hope you settle with Microsoft ASAP and thus they can move forward and take us to the next generation of Technology and keep US, the leader in Technology like they did last time. Thank you
